JAN 1, 45 BC

Duncan:Cal

The date Julius Caesar
started the Julian Cal.
in use till 1582.

45 BC

Duncan; Cal

Julius Caesar's yr was
365 d 6h ave.
11m 14s too long

45 BC

Caesar decreed the year began with the 1st of Jan., not the vernal equinox

This Julian Cal. is still the Cal. of the Eastern Orthodox Churches

#600C 450C

~~450C~~

~~#600C~~ being leap year, the fifth year should have been the next leap year.

The priests however intercalated a day every 3rd year so that by 800C three days too many had been intercalated

skip 100C ; 500C

45 BC

Caesar arranged that the months should have 30 and 31 days alternately, with 29 (or 30 in leap yr) for February.
